

门店之间调货 • Transfer stock between stores

24 Xpress App • 全体门店员工 • All store staff • App 2026-10-04.143

先看这里 • READ FIRST

规矩

Rules

- 1 送货的店在 App 开调货单，收货的店在 App 点收。**点收后 App 自动在 AutoCount 开调货单，数量按收货店点到的。不用再在 AutoCount 手动打调货单。
The sending store makes the transfer in the App; the receiving store counts it in the App. After the count, the App creates the AutoCount transfer for the quantities **the receiving store counted**. No more keying transfers in AutoCount by hand.
- 2 送货的人不能自己点收，要由收货店的同事点。**收到的不能比送出的多。
The sender cannot confirm their own transfer; a colleague at the receiving store counts it. You cannot receive more than was sent.
- 3 少了就写实际收到的数量，没到写 0。**少的部分 HQ 会自动收到通知跟进。
If short, enter what actually arrived (0 if none). HQ is told about any shortage automatically.
- 4 咖啡馆（BR24、BR26）不是调货，请继续用「记到咖啡馆」。**
The cafés (BR24, BR26) are not transfers; keep using "Book to café".

收货页 → 门店调货

Goods receive → Store transfers

在 **收货** 页最上面按 **门店调货（送出／收货）**，或按首页的「调货单等你确认」卡。

On the **Goods receive** page tap **Store transfers (send / receive)** at the top, or tap the "transfers waiting" card on Home.

开调货单

Make a transfer

- 1 选送去哪间店。
Pick the store.
- 2 打货名、货号或扫条码，点一下加入，写数量。
Type the name or code, or scan; tap to add; enter the quantity.
- 3 按 **送出**，把货和调货单号 (XF...) 一起交给对方。
Tap **Send** and hand over the goods with the transfer number (XF...).

货到了：点数确认

Goods arrived: count and confirm

一样一样点，写实际收到的数量，按 **确认收到**。列表会显示「AutoCount 已过账」。如果显示「还没进 AutoCount」，按 **再送一次**。

Count each item, enter what arrived and tap **Confirm received**. The list then shows "Posted in AutoCount". If it says "not in AutoCount yet", tap **Send again**.
