# 门店之间调货 · Transfer stock between stores

24 Xpress App · 全体门店员工、跑腿 · All store staff and runners · App 2026-10-04.146

像大型便利店一样**三方交接**：送货店打包、数袋、拍照 → 带货的人数袋、按「已取货」 → 收货店先数袋，再点货。哪一段少了，一看就知道。

A **three-way handover**, the way big convenience chains do it: the sending store packs, counts the bags and takes a photo → the carrier counts the bags and taps Picked up → the receiving store counts the bags first, then the items. If anything goes missing, you can see at which step.

---

先看这里 · READ FIRST

## 规矩

Rules

1. **送货的店在 App 开调货单，收货的店在 App 点收**。点收后 App 自动在 AutoCount 开调货单，数量按**收货店点到的**。不用再在 AutoCount 手动打调货单。

   **The sending store makes the transfer in the App; the receiving store counts it in the App.** After the count, the App creates the AutoCount transfer for the quantities **the receiving store counted**. No more keying transfers in AutoCount by hand.

2. **每张调货都要写谁带货、几袋／几箱，还要拍打包好的货**。

   **Every transfer records who carries it, how many bags / cartons, and a photo of the packed goods.**

3. **送货的人不能自己点收**，要由收货店的同事点。收到的不能比送出的多。少了就写实际数量，HQ 会跟进。

   **The sender cannot confirm their own transfer**; a colleague at the receiving store counts it. You cannot receive more than was sent. If short, enter what arrived; HQ follows up.

4. 送出超过 24 小时还没收到，HQ 会看到 ⏰。咖啡馆（BR24、BR26）不是调货，继续用「记到咖啡馆」。

   Anything not received 24 hours after sending shows ⏰ to HQ. The cafés (BR24, BR26) are not transfers; keep using "Book to café".

① 打开 · OPEN

# 首页 → 门店调货

Home → Store transfers

首页「货品与库存」按 **门店调货** （卡车图标），或按首页的调货卡。

Under Goods & stock on Home, tap **Store transfers** (the truck), or tap the transfer card on Home.

② 送出 · SEND

# 开调货单、打包、交接

Make the transfer, pack, hand over

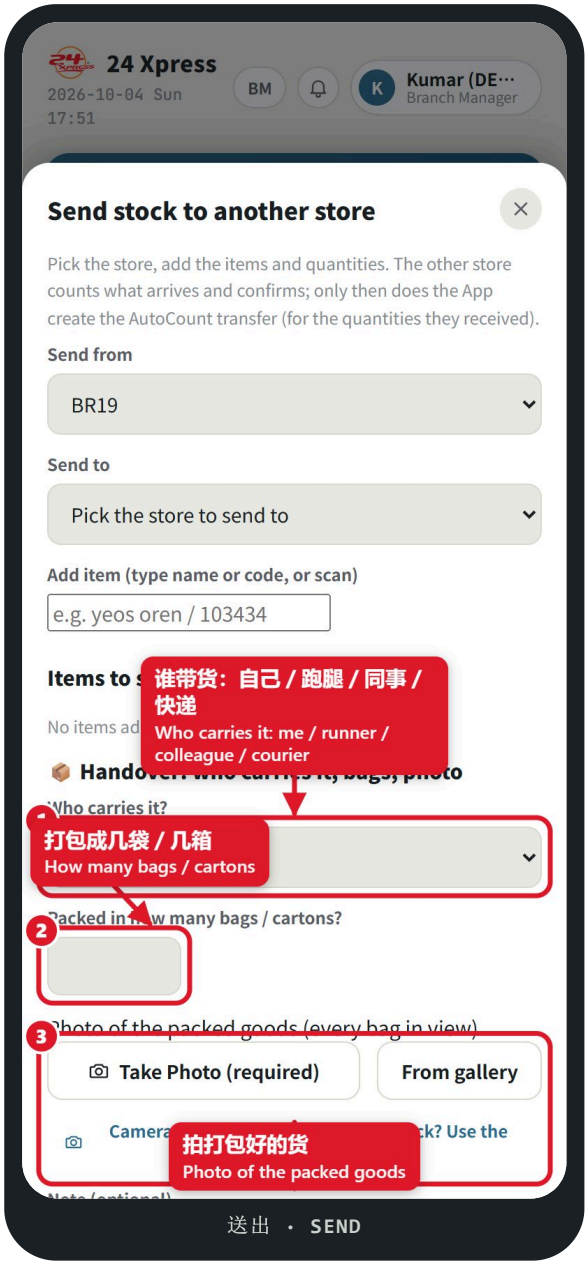

1. 按 **送货去别间店**，选送去哪间店，加货品和数量。
   Tap **Send stock to another store**, pick the store, add the items and quantities.

2. **谁带货**：我自己送、跑腿、对方店的同事来拿、本店同事，或快递（写快递名字和车牌）。
   **Who carries it**: me, a runner, a colleague from the other store who collects it, a colleague from my store, or a courier (enter the courier name and plate).

3. **打包成几袋／几箱，再拍打包好的货**（每一袋都要拍到）。
   Enter **how many bags / cartons**, then **photograph the packed goods** (every bag in view).

4. 按 **送出**。货和调货单号（XF…）一起交给带货的人。
   Tap **Send**. Hand the goods and the transfer number (XF…) to the carrier.

5. 送错了？带货的人还没按「已取货」就可以取消；自己送或快递的，送出后 30 分钟内可以取消。之后要找 HQ。
   Sent by mistake? Cancel before the carrier taps Picked up; for self or courier deliveries, within 30 minutes of sending. After that, ask HQ.

③ 带货 · CARRY

# 带货的人：数袋，按「已取货」

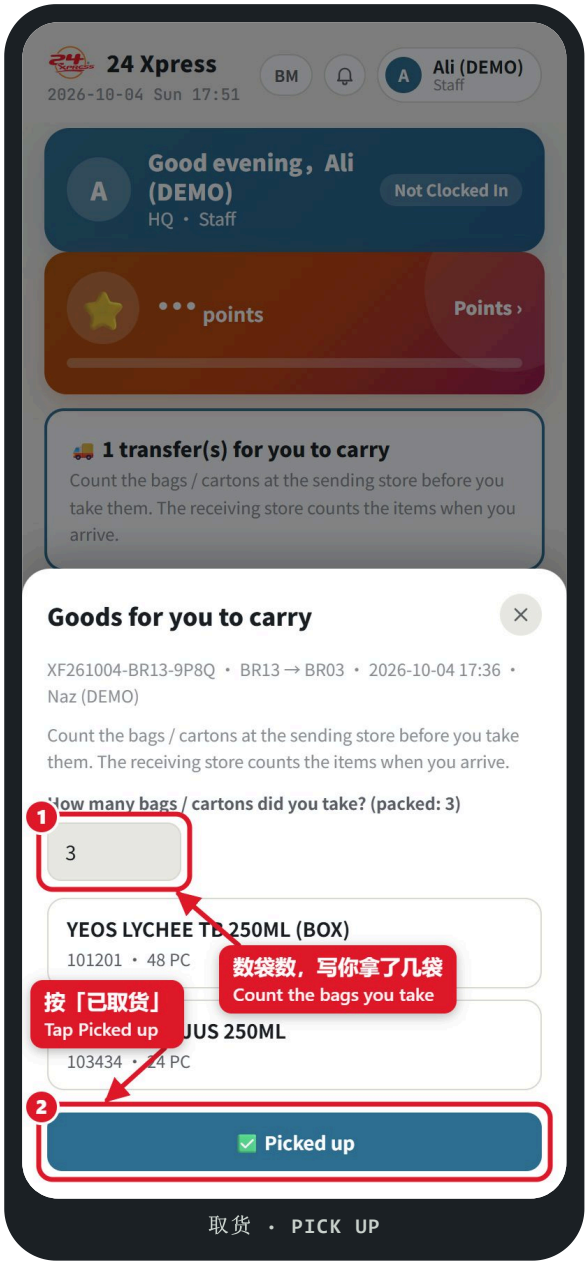

The carrier: count the bags, tap Picked up

1 被指定带货的人，首页会出现「有 n 张调货要你带过去」。点开 **要你带去的货**。

If you are named as the carrier, Home shows "n transfer(s) for you to carry". Open **Goods for you to carry**.

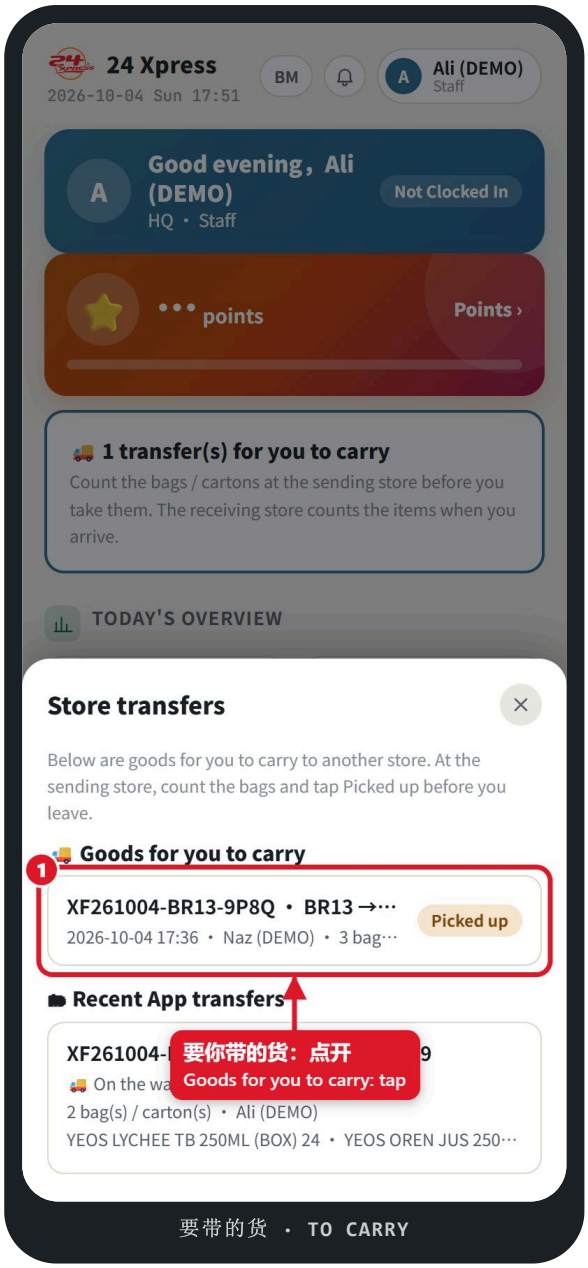

2 在送货的店**当面数袋数**，写你拿了几袋，按 **已取货**，再出发。袋数不对，送货店和 HQ 会看到。

At the sending store, **count the bags in front of them**, enter how many you took, tap **Picked up**, then go. If the count differs, the sending store and HQ see it.

带货的人也可以在「门店调货」里看到自己要带的货。

Carriers also see their goods to carry under Store transfers.

④ 点收 · RECEIVE

# 先数袋，再点货

Count the bags first, then the items

1. 货到了，打开那张调货单。**先数袋数**，写收到几袋／几箱。

   When the goods arrive, open the transfer. **Count the bags first** and enter how many bags / cartons arrived.

2. 再一样一样点，写实际收到的数量，按 **确认收到** 。App 自动在 AutoCount 开调货单。

   Then count each item, enter what arrived and tap **Confirm received**. The App creates the AutoCount transfer.

3. 袋数少了：HQ 去问带货的人。袋数对、货少了：是打包的问题，HQ 去问送货店。

   Bags missing: HQ asks the carrier. All bags there but items short: a packing problem; HQ asks the sending store.

状态 · STATUS

# 一眼看到货在哪里

See where the goods are

- 📦 等某人来取货 · Waiting for someone to pick up
- 🚚 运送中 · 谁带 · 几袋 · On the way · who · how many bags
- ✅ AutoCount 已过账 · Posted in AutoCount
- ⚠ 少了几袋／带货的人没按取货／带货的人自己点收 · bags missing / carrier did not tap Picked up / received by the carrier
- ⏰ 超过 24 小时没收到 · not received after 24 hours
- HQ 和送货店可以按 📷 看打包照片。 · HQ and the sending store can tap 📷 to see the packing photo.

© 看货品 · CHECK THE ITEMS

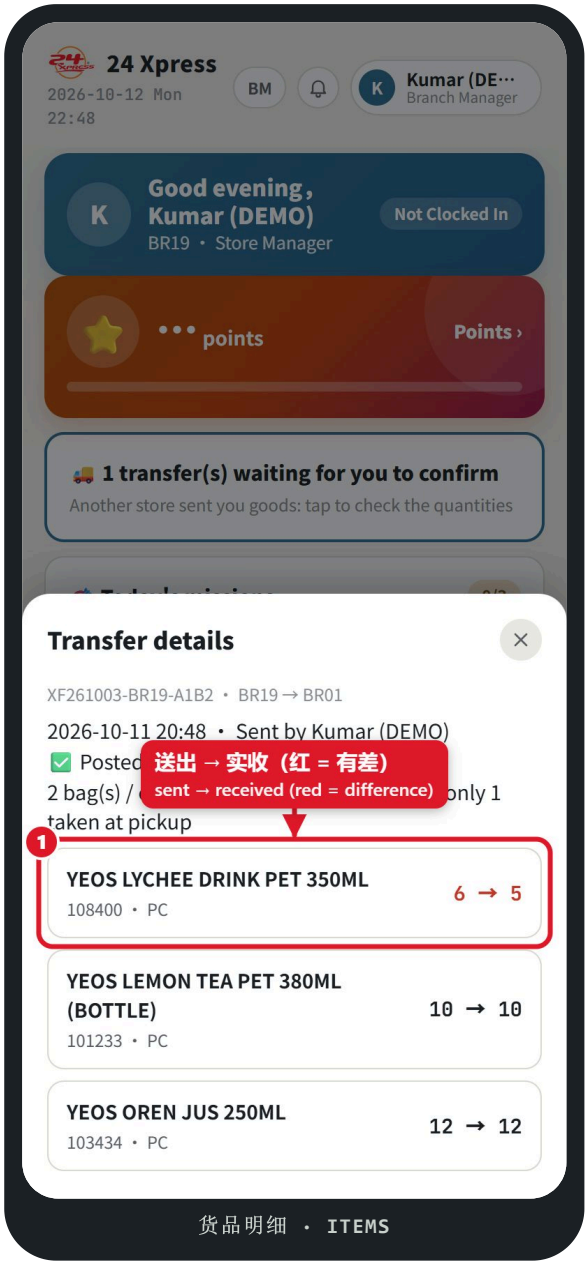

# 点开任何一张调货，看每样货

Open any transfer to see every item

1. 在调货页，**点任何一张调货**（「寄给你的」那几张旁边有 🔍 **查看货品** 按钮；点整行还是进入点收）。
   On the transfer page, **tap any transfer** (the ones sent to you also have a 🔍 **View items** button; tapping the whole row still opens the count).

2. 会看到调货单号、谁送出、状态、几袋，以及**每样货的送出数量 → 实收数量**。收的数量比送的少，会用**红色**显示。
   You see the transfer number, who sent it, the status, the bags, and **every item with sent → received quantity**. A short receive is shown in **red**.

3. 这里只看，不会改任何东西。要点收请在「寄给你的」那一张里按点收。
   This is view only; nothing is changed. To count and confirm, open the one sent to you.
