

排班指南 • How to put in the roster

24 Xpress App • 店长和 HQ • Store managers and HQ • App 2026-10-03.130

先看这里 • READ FIRST

排班的规矩

Roster rules

- 1 每周开始前排好**（最迟星期日晚上）。每天早上的考勤异常、迟到、缺勤都是照 App 里的排班算。
Put the week in before it starts (Sunday night at the latest). Every morning's attendance check (late, absent, missed punch) uses the roster in the App.
- 2 一个人一班一格**。分两段的（例 8AM-1PM 在 BR09、晚上在别店）就排两个班，各选对的门市。
One shift per box. A split day (e.g. 8AM-1PM at BR09, evening at another store) is two shifts, each at the right store.
- 3 过夜班：**结束时间比开始早就是到第二天，例 17:00-02:00、18:00-09:00。**半夜 12AM 开始的班**（例 12AM-10AM）排在**第二天**的日期，开始 00:00。
Overnight: an end earlier than the start runs into the next day, e.g. 17:00-02:00, 18:00-09:00. **A shift starting at midnight** (12AM-10AM) goes on the **next day's** date, starting 00:00.
- 4 休息、请假不用排**。请假请员工在 App 申请（年假要提前 7 天），批准后勤勤不会算缺勤。
Days off and leave are not shifts. Staff apply for leave in the App (annual leave 7 days ahead); once approved it is never counted as absent.
- 5 支援别店：**排在去支援的那间店。员工要先设好「支援门市」才排得进（HQ 在人员里设）。
Helping another store: put the shift at **the store they go to**. The person needs that store in their cover stores first (HQ sets it in Staff).
- 6 整周一次上传最快**（下面 ④）。传错了改好文件再传，同一天会被新文件换掉。
Uploading the whole week is fastest (④ below). If something is wrong, fix the file and upload again; each day is replaced by the new file.

店长 ④ 排班 • ROSTER

加一个班、改一个班

Add or change one shift

按首页的 **排班**，或在 **我的** 往下到 **排班管理**。蓝色格子是已排的班，+ 是空的。

Tap **Schedule** on Home, or scroll to **Schedule**

Management in Me. Blue cells are shifts; + is empty.

- 1 用 **< 本周 >** 翻到要排的那一周。表格可以左右滑，看到星期五到星期日。
Use **< This week >** to show the week. Swipe the grid sideways to see Friday to Sunday.
- 2 点那个人那一天的格子。
Tap that person's cell for the day.

- 3 点一个班次模板（早班 09:00-18:00、中班 14:00-23:00、夜班 23:00-07:00），马上存好。
Tap a **shift template** (Morning, Afternoon, Night); it is saved at once.
- 4 时间不一样，就改开始时间 / 结束时间，再按 **保存排班**。
For other times, set **Start / End** and tap **Save Shift**.

- 格子里已有班：打开后按 **删除** 就删掉。A cell with a shift: open it and tap **Delete**.
- 今天以前的班店长不能加也不能删；要改找 HQ。
Managers cannot add or delete shifts **before today**; ask HQ.
- **复制上周** 把上一周的班整周抄过来（已有的不会重复）。**Copy last week** copies the previous week's shifts (no duplicates).
- 名字旁边有「支援」的，是别家店来帮忙的人。A **Cover** tag marks someone from another store helping here.

整周排班一次上传

Put the whole week in at once

先翻到要排的那一周，在排班管理按 **上传排班**。HQ 先点店号。

Show the week first, then tap **Upload schedule** in Schedule Management. HQ picks the store first.

1 按 **下载本周模板**，得到 schedule-BR19-2026-09-28.csv 这样的文件，用 Excel 或 Google Sheets 打开。A 列名字、B 列工号，C 到 I 列是星期一到星期日，已经有 App 里现在的班。

Tap **Download this week's template**; open the file (e.g. schedule-BR19-2026-09-28.csv) in Excel or Google Sheets. Column A is the name, B the staff code, C to I Monday to Sunday, already holding the shifts in the App.

2 只改星期的格子，存成 .xlsx 或 .csv。回到这里按 **选择文件** 选它。（电脑上也可以把整个表格连第一行复制，贴在下面的框里。）

Change only the day cells and save as .xlsx or .csv. Back here, tap **Choose file** and pick it. (On a computer you can also copy the whole table, header row included, and paste it into the box.)

3 按 **检查**。这一步还没有保存，只是先给你看会改什么。

Tap **Check**. **Nothing is saved yet**; it only shows what would change.

格子怎么写 • What to put in a cell

09:00-18:00 (也可写 9am-6pm、0900-1800) •

过夜 23:00-07:00 • 两段 09:00-13:00 /

17:00-22:00 • 班次名 早班 中班 夜班 • 不上班

OFF 或 休 (当天原有的班会删掉; 请假仍要在

App 申请) • 空白 = 不改。

09:00-18:00 (or 9am-6pm, 0900-1800) • overnight

23:00-07:00 • two shifts 09:00-13:00 / 17:00-

22:00 • a shift name (Morning / Afternoon / Night)

• day off OFF (removes that day's shift; leave is still applied for in the App) • **empty = no change.**

4

看预览：最上面是「新增・删除・不变」几格；每一行是「那天原本 → 保存后」，— 表示原本没有班。

Read the preview: the top line counts **Add・Remove・Unchanged**; each line is "before → after"; — means no shift before.

5

没问题就按 **保存排班**。App 保存后会再读一次、逐格核对：看到「 已保存并逐项核对」就完成，员工会看到新班。看到「 以下没有生效」就截图给 HQ。

If it is right, tap **Save schedule**. The App reads the week back and checks each day:  **Saved and checked** means done and staff see the new shifts.

 **Not applied**: send a screenshot to HQ.

Add 4・Remove 2・Unchanged 13

Aisyah (DEMO)・10-02 Fri: 09:00-18:00 → **OFF**

Mei Ling (DEMO)・10-03 Sat: 14:00-23:00 → **09:00-18:00**

Raju (DEMO)・10-03 Sat: — → **23:00-07:00**

Siti (DEMO)・10-03 Sat: — → **09:00-13:00 / 17:00-22:00**

Not in this store (use the name or code from the template): Ali (DEMO)

Cells not understood (not imported): Raju (DEMO)
2026-10-02: 9-9

Past days are not changed: Aisyah (DEMO) 2026-09-28

Save schedule

看会改什么

Read the changes

预览・PREVIEW

本店名单里找不到・Not in this store

名字或工号对不上，那一行没导入。用模板里的写法再传一次。

The name or code doesn't match; that row is skipped. Use the spelling from the template and upload again.

看不懂格子・Cells not understood

例如 9-9。这些格子不导入，其他照常；改好再传。

E.g. 9-9. Those cells are skipped, the rest go ahead; fix and upload again.

已过去的日子不会改・Past days are not changed

今天以前的班已经用来算出勤和工资，店里不能改；需要改找 HQ。

Days before today were already used for attendance and pay; ask HQ if one is wrong.

传错了就改好文件再传一次，同一天会按新文件换掉。每天早上的考勤异常是按 App 里的排班判断的，请在那一周开始前上传好。

Uploaded something wrong? Fix the file and upload again; each day is replaced by the new file. Morning attendance exceptions are judged against the App's roster, so upload before the week starts.
