

确认门店设备 • Confirm your store equipment

24 Xpress App • 店长和 HQ • Store managers and HQ • App 2026-10-04.138

先看这里 • READ FIRST

为什么要确认

Why we confirm

- 1 设备清单是从**会计资料**（AutoCount 资产记录）放进 App 的，按门店分好。请店长一样一样看：**还在的确认，真的不在了才拿掉**。

The equipment list comes from the **accounts** (AutoCount asset records), split by store. The manager goes through it: confirm what is **still here**, and take off only what is **really gone**.
- 2 拿掉的设备**不会删除**，会计会看原因跟进（报废、搬店）。按错了 HQ 可以放回去。

Nothing taken off is **deleted**; the accounts follow up the reason (written off, moved). HQ can put back anything tapped by mistake.
- 3 清单上没有、但店里有的设备，用 **添加设备** 自己加。

Equipment in the store but not on the list: add it with **Add equipment**.
- 4 没有店长的门店由 HQ 确认。员工看得到清单，但由店长按。

Stores without a manager are confirmed by HQ. Staff can see the list; the manager does the tapping.

打开要确认的清单

Open the list to confirm

按下面的 **设备** → **门店设备**。最上面黄边的卡说有
几样要确认，按 **开始确认**。

Tap **Equipment** at the bottom → **Store equipment**. The
yellow-edged card says how many items wait; tap **Start**
confirming.

一样一样确认

Confirm one by one

- 1 多件的（例 5 个 CCTV）先写**还剩几件**。
For several (e.g. 5 CCTV), first enter **how many are left**.
- 2 按 **还在**。这一下就进入门店设备清单，冷柜冰柜会出现在温度记录里。
Tap **Still here**. The item joins the store equipment list; chillers and freezers then appear in the temperature log.
- 3 只剩几件、少了的，HQ 会看到「只找到几件」并跟进。
If fewer are left, HQ sees "only N found" and follows up.

真的不在了才拿掉

Take off only what is really gone

按 **不在了**，选原因：坏了／已丢掉、搬去别的门店（选哪一间）、这间店从来没有、其他（要写明）。按 **确定不在了**。按 **回到清单** 就不改。

Tap **Not here** and pick why: broken / thrown away, moved to another store (pick which), never had it, other (write it). Tap **Yes, not here**. **Back to the list** changes nothing.

设备

门店设备 点位 故障 巡检记录

+ 添加设备

会计资料里这间店有 4 样设备要确认
一样一样看：还在就按「还在」（多件的写还剩几件），不在了才按「不在了」。已确认 0 样。

开始确认

不在了 选原因：搬去别店要选哪一间
Pick why; for moved, pick the store

WATER BOILER NX-30

为什么不在?

坏了／已丢掉

1 搬去别的门店

这间店从来没有这样东西

其他 (请写明)

确定 Confirm 备注 要写)

2 确定不在了 回到清单

不在了 · NOT HERE

HQ 跟进拿掉的设备

HQ follows up what was taken off

HQ 在 **门店设备** 下面看到 **门店拿掉的设备**：搬去别店的按 **搬去**，那间店就会收到要确认；按错的按 **放回去**。门店小标签上的 ⌚ 是还有几样没确认。

Under **Store equipment** HQ sees **Equipment taken off by stores**: for a moved item tap **Move to** and that store gets it to confirm; tap **Put back** for a mistake. The ⌚ on a store chip is how many still wait.
